NORDIC CITY REGIONS IN A GLOBAL ENVIRONMENT

25-26 November 2015, Kulturværftet, Helsingør, Denmark

Welcome to the third Nordregio Forum, the meeting place for policymakers, researchers and practitioners, working within the fields of urban planning and sustainable regional development in the Nordics.

Nordregio Forum 2015 will focus on the strengths and weaknesses of Nordic city regions in a time characterized by fierce global competition, climate change and migration. Through international scholars and creative city examples, panel discussions and peer-to-peer dialogue, we will explore ways forward under three

different, cross-cutting themes or challenges:

1. Competitive and sustainable city regions
2. Effective governance of Nordic city regions – collaboration within and between city regions
3. Liveable and socially inclusive city regions

Nordregio Forum will also be an arena for discussion about a Nordic urban agenda for closer collaboration and increased political focus on our Nordic city regions and their needs in order to fulfil their important roles.

PROGRAMME

DAY 1: WEDNESDAY 25 NOVEMBER

- 8:00-10:00 **REGISTRATION AT KULTURVAERFTET & COFFEE**
- 10:00 **OPENING**
Dagfinn Høybråten, Secretary-General, Nordic Council of Ministers
- COMPETITIVE AND SUSTAINABLE NORDIC CITY REGIONS**
Moderator: Martin Breum

Planning for urban social sustainability in the Nordic context by Moa Tunström, Nordregio
Coffee & discussions

15.30-16.00

CONCLUDING REMARKS Kjell Nilsson, Director and Lukas Smas, Senior Research Fellow, Nordregio

KEY-NOTES

Bent Flyvbjerg, Professor, Oxford University

“The conventional way of managing megaprojects has reached a tension point.” Bent Flyvbjerg is the guru of the project management industry and the most widely cited scholar in his field, especially the research paper “What You Should Know About Megaprojects and Why.” As a Professor at the University of Oxford’s Saïd Business School, Flyvbjerg teaches megaproject managers how to beat the odds and achieve megaproject success.

Tonje Frydenlund, Managing Director, Snøhetta

Tonje Frydenlund joined Snøhetta in 2001 and 2013 became the Managing Director for Snøhetta in Oslo. Snøhetta is an award-winning international architecture, landscape architecture, interior and graphic design firm based in Oslo and New York. The firm has completed a number of critically acclaimed projects, including the Bibliotheca Alexandrina in Egypt and the new National Opera and Ballet in Oslo.

Larry Beasley, Professor, Former Director of Planning for the City of Vancouver

Photo: Marina Douk

The city of Vancouver is known as one of the most liveable cities in the world. Larry Beasley, the retired Co-Chief Planner for the City of Vancouver, led the transformation. He is now the founding principal of Beasley and Associates, an international planning and urban design consultancy and the “Distinguished Practice Professor of Planning” at the University of British Columbia.

Tuna Tasan-Kok, Ass. Professor, University of Amsterdam

Tuna Tasan-Kok has conducted international comparative research on urban change in a number of European countries for over a decade. Currently she is exploring governance arrangements and participatory local policy initiatives in hyper-diversified cities as well as positive aspects of urban diversity within a large-scale research project funded by the EU Framework Programme (FP7), DIVERCITIES.

William Tompson, Senior Counsellor, OECD

William Tompson is the Senior Counsellor and Deputy Head of the Regional Development Policy Division of the OECD, having previously spent seven years as a Senior Economist in the organisation’s Economics Department. Prior to joining the OECD, Professor Tompson taught at the University of London, the University of Oxford and the University of Texas at San Antonio.
